

Suburban Breast Center - Outpatient Facility

Location:

6410 Rockledge Drive Suite 505
North Bethesda, Maryland

Client: Suburban Hospital HealthCare System

Description: The Suburban Breast Center is a service of the Suburban Hospital Healthcare System, a not-for-profit organization offering state-of-the-art diagnostic and treatment services in a safe and friendly community environment.

The Suburban Breast Center is a comprehensive program guided by a philosophy of addressing total breast health and overall patient well-being. Suburban's multidisciplinary team of caring professionals provides a range of services with an emphasis on maintaining health and wellness through education, outreach and screening. The Suburban Breast Center also provides a broad spectrum of diagnostic, treatment and supportive services to ensure that women throughout the community have a winning edge in the fight against this frightening disease.

The hallmark of the Suburban Breast Center is its multidisciplinary design, which provides patients access to a team of highly qualified healthcare providers specializing in diagnostic radiology, breast surgery, medical oncology, radiation oncology, plastic surgery, pathology, nursing and counseling.
